

KDFM Printanista

AR DATA RELAY BOX

Get your devices data,
ship supplies to customers
and bill your customers
Always On Time.

Easy-to-use, 5 minute
installation, Operating
System already installed,
pre-installed DCA, with
no upkeep required.
Reduce the IT Burden

Reduce expensive MPS
support time with a cost-
effective automated tool.
**Great Value with a
Simple Appliance**

- Ensure constant connection between the customer's printing devices and **KDFM Printanista**.
- The AR Data box provides a patented technology to always report meters, levels or error codes from devices by using a dedicated relay box.
- The AR Data box is compatible with all devices, all brands. Can be attached to the device or installed on the customer's network.
